Organisation name:

Submission contents

Enter your submission below. Maximum of 500 words: I am concerned that construction on Little Mindil is going to proceed without adequate community & expert pconsultation. The vegetation on the escarpment was cleared by the casino years ago and community outcry resulted in it being replaced. It was a task well done. From this action I believe that you can be assured that the public do not want to lose this inheritance. Also I do not want our children to be stuck with an expense when rising sea levels and dramatic weather events cause devastation to badly planned development. I am against the current application
