Requirement Checklists

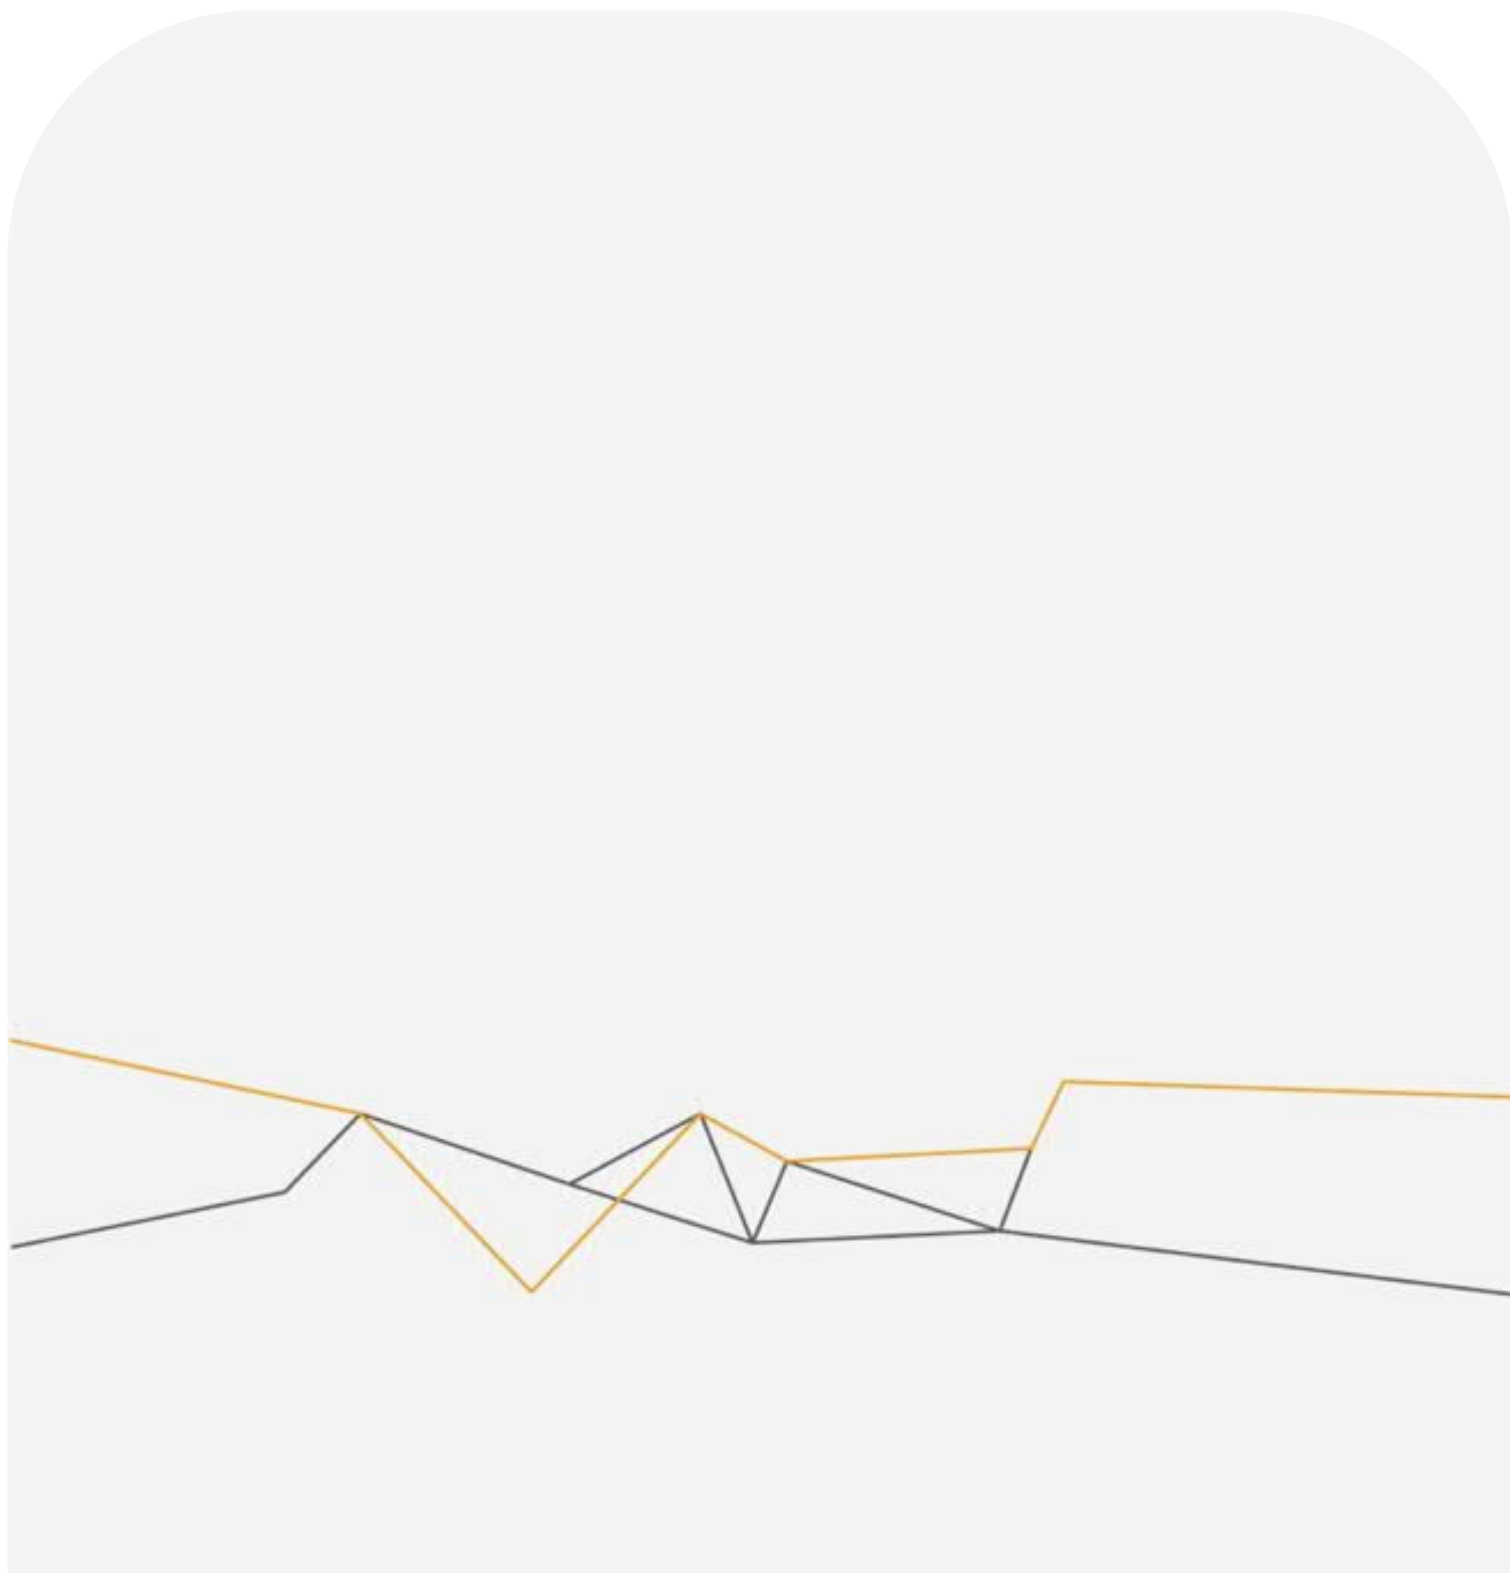

Table 1: NT EPA Environmental Impact Assessment Guidance for Proponents

Checklist of Requirements of the NT EPA Environmental Impact Assessment Guidance for Proponents		
Section	Requirement	Cross-reference
4.2.1	<p>Identifying any minor modifications to the proposal</p> <p>The supplement must not present any significant variations that may change the environmental significance of the proposal. Minor modifications to improve the environmental performance/outcome of the proposal, in response to a submission are encouraged. Any modifications of the proposal made must be clearly described in the supplement.</p>	<p>Chapter 2 Project Refinement to this SEIS</p> <p>Also Chapters 3 to 16 of this SEIS</p>
4.2.2	Responding to submissions	
	The supplement must provide meaningful and well-structured responses to public and government authority submissions received in response to the draft EIS. The supplement should include the following information in response to submissions, where relevant:	
	Analysis and categorisation of the submissions received, organised by environmental factor	Appendix 1.3 EIS Submissions Cross Reference Table of this SEIS
	A summary table identifying the stakeholder, issues raised in submissions and a response to the submissions including actions taken to address those issues such as engagement and any further environmental assessment	Appendix 1.3 EIS Submissions Cross Reference Table of this SEIS
	A description of any changes to the proposal as a result of submissions received, including updated plans, figures and images.	As explained in Section 1.1, changes that have been made to the Project's scope since the Draft EIS was prepared have been made due to the standard engineering design process which a project like this is subject to. As this design process has progressed, knowledge of the Project's needs has necessitated some minor refinements as set out in Chapter 2. No changes to the

Checklist of Requirements of the NT EPA Environmental Impact Assessment Guidance for Proponents		
		Project's scope have been specifically made in response to submissions received, as a review of these submissions deemed this to be unnecessary.
	The proponent's response to the issues raised in the submissions.	Appendix 1.3 EIS Submissions Cross Reference Table of this SEIS
	An updated evaluation of the potentially significant environmental impacts (including residual impacts) of the proposal.	Chapter 2 Project Refinement Also Chapters 3 to 16 of this SEIS
	Where the proponent does not adopt the recommendations included in submissions, it should provide a clear explanation of the reasons why those recommendations have not been adopted.	Chapters 3 to 16 of this SEIS
