

**SECTION 14 INCIDENT REPORT (*Waste Management and Pollution Control Act*)**

|                                       |  |
|---------------------------------------|--|
| <b>Date and Time of Notification:</b> | 24 February 2015                         |
| <b>Person / Company:</b>              | BHP Billiton Manganese Australia (GEMCO) |
| <b>Incident:</b>                      | Stormwater Discharge                     |

|  |   |
|--|---|
| <b>(a) the incident causing or threatening to cause pollution</b>  | Discharge of stormwater   |
| <b>(b) the place where the incident occurred</b>   | Milner Bay, Alyangula, Groote Eylandt   |
| <b>(c) the date and time of the incident</b>   | 15/2//15 at 14:00   |
| <b>(d) how the pollution has occurred, is occurring or may occur</b>   | During an intense rain event, stormwater breached an established windrow/bund in the Port Stockpile area and consequently ran off into Milner Bay. The period of discharge was approximately 1 hour |
| <b>(e) the attempts made to prevent, reduce, control, rectify or clean up the pollution or resultant environmental harm caused or threatening to be caused by the incident</b> | Emergency stormwater sumps and pumps were in operation at the time of the event. The breached bund was refurbished.   |
| <b>(f) the identity of the person notifying the NT EPA</b>   | Heath Carney  |
