

List of Figures

| FIGURE TITLE | PAGE |
|--|--------|
| Figure 1-1 Jervois Project Regional Location | 1-4 |
| Figure 1-2 Jervois Project Tenures | 1-5 |
| Figure 1-3 Historic Mining Disturbance | 1-11 |
| Figure 1-4 Unca Creek EL28082 | 1-17 |
| Figure 1-5 Jervois Project EIS Methodology | 1-19 |
| Figure 2-1 Proposed Project Infrastructure | 2-4 |
| Figure 2-2 Reward Open Pit and Waste Dump | 2-6 |
| Figure 2-3 Bellbird Open Pit and Waste Dump | 2-6 |
| Figure 2-4 Reward Underground - Surface Location, Plan View | 2-8 |
| Figure 2-5 Bellbird Underground - Surface Location, Plan View | 2-9 |
| Figure 2-6 Life of Mine Material Movement | 2-13 |
| Figure 2-7 Current Concept Mill Feed Schedule | 2-14 |
| Figure 2-8 Proposed Plant Layout | 2-23 |
| Figure 2-9 Processing Schematic Flowsheet | 2-23 |
| Figure 2-10 – Water Mass Balance Process Flow Diagram | 2-25 |
| Figure 2-11 Jervois Landscape | 2-28 |
| Figure 2-12 Historic Mining Disturbance | 2-28 |
| Figure 2-13 Historic Mining Disturbance | 2-29 |
| Figure 3.1-1 Percent slope across Jervois Project area | 3.1-4 |
| Figure 3.1-2 Simplified regional surface geological map derived from 1:250000 sheet | 3.1-6 |
| Figure 3.1-3 Geological cross-section through the study area showing the relationship between the Cambrian sediments, Bonya Metamorphics and Runta rocks. Jervois Mine offset along strike. | 3.1-8 |
| Figure 3.1-4 Surface geology of the Jervois Project Area | 3.1-10 |
| Figure 3.1-5 Interpreted bedrock geology and mineral resources | 3.1-12 |
| Figure 3.1-6 Marshal-Reward cross section 74946N | 3.1-14 |
| Figure 3.1-7 Bellbird cross section 7490640N | 3.1-15 |
| Figure 3.1-8 Left -Seismicity of the Norther Territory from the Geoscience Australia earthquake database, epicentres from 1901 to 2011, magnitude 3 and above. Right - Earthquake hazard assessed by Geoscience Australia (Burbidge, 2012) Source: (McCue, 1993) | 3.1-17 |
| Figure 3.1-9 Land systems across Jervois Project area (1:250,000) (land system data from DENR) | 3.1-20 |
| Figure 3.1-10 Soil map units across Jervois project area (VPS 2018) | 3.1-22 |
| Figure 3.1-11 Lake Eyre Basin ¹ | 3.1-24 |
| Figure 3.1-12 Hay River basin drainage network | 3.1-25 |
| Figure 3.1-13 Local drainage network in vicinity of the Project | 3.1-26 |
| Figure 3.1-14 Unca Creek channel at the proposed Reward Pit location | 3.1-27 |

| | |
|--|---------------|
| Figure 3.1-15 Jervois Dam water surface (looking west) | 3.1-28 |
| Figure 3.1-16 Locations of baseline surface water quality monitoring sites | 3.1-29 |
| Figure 3.1-17 Surface water and groundwater interaction mechanisms | 3.1-30 |
| Figure 3.1-18 Hydrogeological units classified by aquifer type (CloudGMS 2018). | 3.1-33 |
| Figure 3.1-19 Groundwater potentiometric surface and inferred groundwater flow directions. | 3.1-36 |
| Figure 3.1-20 Groundwater quality (TDS) distribution (source DENR NR Maps, CloudGMS 2018). | 3.1-37 |
| Figure 3.1-21 Distribution of existing groundwater users in the project area | 3.1-38 |
| Figure 3.2-1 Land units | 3.2-8 |
| Figure 3.2-2 Vegetation communities | 3.2-9 |
| Figure 3.2-3 Floristic Values of Conservation Significance | 3.2-11 |
| Figure 3.2-4 Refined Vegetation Communities | 3.2-22 |
| Figure 3.3-1 Historic Mine Disturbance and Infrastructure | 3.3-2 |
| Figure 3.3-2 Project Location | 3.3-3 |
| Figure 3.3-3 Bonya Community | 3.3-3 |
| Figure 3.3-4 Maperte Community | 3.3-4 |
| Figure 3.3-5 Maperte Community | 3.3-4 |
| Figure 3.3-6 Project Historical Features | 3.3-10 |
| Figure 3.3-7 ELDO Rocket Shelter at Jervois Station | 3.3-11 |
| Figure 3.4-1 Location of the Project within the Central Desert Regional Council LGA | 3.4-2 |
| Figure 3.4-2 Location of Local Aboriginal Communities | 3.4-3 |
| Figure 3.4-3 Bonya Community | 3.4-4 |
| Figure 3.4-4 Maperte Community | 3.4-4 |
| Figure 3.4-5 Location of Atitjere Community | 3.4-6 |
| Figure 4-1. The Impact Assessment Process | 4-1 |
| Figure 4-2. Risk Assessment Process | 4-2 |
| Figure 4.1-1 Field Survey Sites | 4.1-8 |
| Figure 4.1-2 Land units | 4.1-14 |
| Figure 4.1-3 Vegetation communities | 4.1-15 |
| Figure 4.1-4 Floristic Values of Conservation Significance | 4.1-18 |
| Figure 4.3-1 Field survey sites | 4.3-7 |
| Figure 4.3-2 Refined Vegetation Communities | 4.3-9 |
| Figure 4.4-1 Hay River drainage network | 4.4-2 |
| Figure 4.4-2 Local drainage network | 4.4-4 |
| Figure 4.4-3 Peak flood depths and extents across the entire Project area, existing conditions, 1% AEP (100 year ARI) event. | 4.4-5 |
| Figure 4.4-4 Peak flood depths and extents near the Reward Pit and Process Plant area, existing conditions, 1% AEP (100 year ARI) event. | 4.4-6 |
| Figure 4.4-5 Peak flood velocities across the entire Project area, existing conditions, 1% AEP (100 year ARI) event. | 4.4-7 |
| Figure 4.4-6 Peak flood velocities near the Reward Pit and Process Plant area, existing conditions, 1% AEP (100 year ARI) event. | 4.4-8 |
