Maximum of 500 words:

I am writing to express my concern at the proposed development at little mindl beach. I think it would degrade the area. There has not been proper consultation in the whole process - taking it away from public space is unjust. A high rise development there would block views to the escarpment, wreck the green space and beach access, create problems for traffic and parking and is in a tidal zone which could be impacted and lead to rate payers fixing the mess. The community have been left out which is shameful. It was always open space and should remain so
