---

The Lands and Planning component of DIPL advise that there are no concerns in relation to the proposed development or land use, however it should be noted that:

- Components of the proposed activity that require clearing of native vegetation over an area larger than 1 ha will require planning approval prior to the commencement of works.
- If a subdivision of land is required or if there is an agreement for a lease of any area of land, whether through a single or cumulative terms of agreement, for a period longer than 12 years, a planning approval for a subdivision will also be required.

Additional information in relation to application requirements under the *Planning Act 1999* can be obtained from Development Assessment Services ([DAS.NTG@nt.gov.au](mailto:DAS.NTG@nt.gov.au) or 8999 6046)
