Emergency contact – details for someone who can respond to an incident related to the licence activity 24/7				
First name	Lana		Last name	Treasure
Position description	Manager – Health, Safety and Environment			
Phone number	+61 429 358 154			
Compliance *				
Were all conditions of the licence/approval complied with during the reporting period?			No	
If 'YES', go to declaration		If 'NO', complete details below. Add more rows as needed.		
Incidents/non-compliances notified to the controller				
List incidents/non-compliances notified to the controller in the reporting period				
Date of incident/non-compliance	The sample was collected on 2 January 2023. The subject result was detected on 4 January 2023, following receipt of preliminary laboratory analysis.		Condition number	Filtered arsenic trigger value in Appendix 3: Table 1 of WDL 174-13
Date and method of notification	<p>The initial notification was submitted via email on 5 January 2023.</p> <p>Following the receipt of the final laboratory analysis, the investigation report was submitted via email on 19 January 2023.</p> <p>The investigation into all available information determined that the subject result could not be attributed to MRM or its operations.</p>			
Date of incident/non-compliance	Relates to the sampling events planned for 12 February 2023 & 7 March 2023. The subject events were identified on 22 July 2023.		Condition number	Condition 26 of WDL 174-13
Date and method of notification	<p>The notification was submitted via email on 23 July 2023 following a reconciliation/review of monitoring data undertaken for the annual monitoring report on 22 July 2023.</p> <p>The above monitoring rounds were not completed as the use of a helicopter for water sampling was suspended for critical safety reasons. Additionally, there was significant flooding and storm activity that restricted helicopter use and safe landing.</p>			

Date of incident/non-compliance	Relates to the continuous monitoring undertaken over the 2022/23 wet season period. The subject events were identified on 22 July 2023.	Condition number	Condition 26 of WDL 174-13
Date and method of notification	<p>The notification was submitted via email on 23 July 2023 following a reconciliation/review of monitoring data undertaken for the annual monitoring report on 22 July 2023.</p> <p>Continuous monitoring did not meet the minimum capture rate specified in Appendix 4: Table 1 of WDL 174-13. A bushfire was experienced at the Mine just prior to the first rainfall of the 2022/23 wet season. The logger casings showed signs of fire damage, which likely contributed to their premature failure.</p>
