**RE: Referral for the Wak Wak Solar Farm proposed by Darwin H2 Project Nominee Pty Ltd.**

**WAK WAK SOLAR**  
**P: 04477 Koolpinyah Station/1230 Goode Road WAK WAK, NT Portions**  
**Wak Wak Solar Farm - NTEPA Referral**

Council appreciates the opportunity to provide comment on the NTEPA referral for the proposed Wak Wak Solar Farm project. This letter may be tabled at Litchfield Council's next Council Meeting. Should the contents of this letter be varied or not endorsed by Council, you will be advised accordingly.

Council's role in the planning and development process is limited to matters within its local government responsibilities, including local road access, stormwater management, and the amenity of nearby residents. Assessment of environmental aspects such as flora, fauna, and broader ecological impacts falls within the jurisdiction of the NTEPA and other relevant authorities.

It is noted that within the Referral Main Report, Table 3-2 *Commonwealth and Territory legislation applicable to the proposal* does not include the *Local Government Act 2019*. This Act is the overarching legislation for Council in relation to roads, including powers, responsibilities, and requirements associated with the management, maintenance, and approval of works within the local road reserve.

It is understood that a separate development application will be lodged with Development Assessment Services at a later stage. Council will provide detailed input at that time in relation to infrastructure and amenity considerations within its scope.

Council supports the ongoing environmental assessment process and appreciates being kept informed as the referral progresses.

Kind Regards,

Jaimie O'Connor  
Planning and Development Program Leader
