

FEES ASSOCIATED WITH ENVIRONMENT PROTECTION APPROVALS AND ENVIRONMENT PROTECTION LICENCES

Environment Protection Approvals and Licences

The *Waste Management and Pollution Control Act* (“the Act”) requires a person conducting an activity specified in Schedule 2 of the Act to have an environment protection approval or licence. The *Waste Management and Pollution Control (Administration) Regulations* (“the Regulations”) prescribe fees associated with applying for, renewing or amending environment protection approvals and licences.

Fees associated with an environment protection approval include:

- Application fee;
- Fee to amend the conditions of the approval.

Fees associated with an environmental protection licence include:

- Application fee;
- Annual fee;
- Fee to amend the conditions of the licence;
- Renewal fee.

Application fees for environment protection approvals or licences must be paid before applications will be processed by the NT EPA.

In addition, upon application, annual fees for environment protection licences must be pre-paid for the first 12 months that the licence will be in force.

All applications must be submitted online in the NT EPA Online system.

www.ntlis.nt.gov.au/ntepa.

Fee Calculations

Fees for Environment Protection Licences and Approvals are calculated using Revenue units. Each financial year the value of a Revenue Unit is assessed and published. There is also guidance on how to calculate fees using Revenue units on this site [Revenue Units](#).

Annual fees are payable for each year an environment protection licence is held. Annual fees are payable in advance and the NT EPA will issue an invoice for annual fees.

Should there be any discrepancy between this document and the Act, the Act prevails.

Environment protection approval and licence application and annual fees

Description	Fee payable	
	Revenue units	Other
Application for Environment Protection Approval: <ul style="list-style-type: none"> • Constructing premises for hydrocarbon production 	345	\$0.00575 per tonne of hydrocarbons that could be produced in the 12 month period following the grant of the approval (Hydrocarbons produced calculation)
Application for Environment Protection Approval: <ul style="list-style-type: none"> • Disposal of waste by burial • Listed waste 	345	N/A
Application for Environment Protection Approval: <ul style="list-style-type: none"> • Hydrocarbon production - modify or alter a premises 	345	\$0.00575 per additional tonne of hydrocarbons that could be produced in the 12 month period following the grant of the approval
