

Organisation: AusGroup Ltd/NT Port and Marine Pty Ltd

Submission contents

NT Port and Marine Pty Ltd (NTPM) a business unit of AusGroup Ltd, owners and operators of the Port Melville port facility, fully support the Provaris Energy Ltd (Provaris) Tiwi H2 Project.

NTPM has been in discussion with Provaris since the commencement of the project and our Port Melville facility is designated as the 'H2 Export Precinct'. This is completely consistent with the capability and operations of the Port and the facility's objectives of being the main enabler of commercial development on Tiwi, the focal point of a productive, diverse and responsible export industry be this forestry, energy or agriculture and a significant contributor to the economic advancement of Tiwi.

Port Melville has proven itself since 2014 in all aspects of harbour and marine operations, support to industry and positive community engagement and this expertise will be utilised to maximise the success of the Tiwi H2 Project and the advancement of the National, Northern Territory and Tiwi economies.
