

APPLICATION FOR CDS COLLECTION DEPOT APPROVAL

This is the approved form for applications for approval to operate a Container Deposit Scheme collection depot under the *Environment Protection (Beverage Containers and Plastic Bags) Act 2014* (the Act).

It is intended that this form will be read in conjunction with the Act and the *Guidelines for CDS Collection Depots*.

The Container Deposit Scheme (CDS)

A collection depot is a facility or premises for the collection and handling of regulated containers delivered to the facility or premises in consideration of the payment of refund amounts for containers, and includes a reverse vending machine and another facility or premises prescribed by regulation.

An approved collection depot means a collection depot for which a collection approval, issued under the Act, is in force.

It is an offence against section 16 of the Act for a person to operate a collection depot unless the person is the holder of a collection approval.

CDS Collection Depot Approval Application

An application for CDS collection depot approval must:

1. Be made in this approved form;
2. Be accompanied by a copy of each proposed waste management arrangement relevant to the approval;
3. Be accompanied by any additional information to enable the NT EPA to decide the applicant.

Please ensure all information and documents provided in conjunction with this application are accurate and truthful. It is a ground for suspending or cancelling a collection approval that the approval was granted because of a materially false or misleading representation.

Applicant's Details

Name of person or company applying for approval:

Trading name (if relevant):

ACN:
