Volume 1 Project Overview

Executive Summary

i	Abbreviations
ii	Units of Measurement
iii	Glossary

1 Introduction

1.1	Project Proponent
1.2	Project Overview
1.3	Regional Context
1.4	Project History
1.5	Project Objectives, Benefits and Justification
1.6	Future Activities
1.7	The Environmental Impact Statement Process

2 Description of the Project

2.1	Overview
2.1.1	Project Infrastructure
2.2	Project components
2.2.1	Mining Construction
2.2.2	Mining Operations
2.2.3	Ore Processing
2.2.4	Tailings
2.2.5	Waste Rock Characterisation
2.2.6	Non-mineral Waste Characterisation
2.2.7	Transport
2.2.8	Water
2.2.9	Energy
2.2.10	Air and Noise Emissions
2.2.11	Workforce and Accommodation
2.2.12	Ancillary Infrastructure
2.3	Closure and Rehabilitation
2.4	Approvals and Conditions

3 Existing Environment

- 3.1 Physical Environment**
 - 3.1.1 Weather & Climate**
 - 3.1.2 Regional Topography**
 - 3.1.3 Regional Geology**
 - 3.1.4 Soil Types and Land Unit(s)**
 - 3.1.5 Surface Water**
 - 3.1.6 Groundwater**
- 3.2 Biological Environment**
- 3.3 Cultural and Historic Environment**
- 3.4 Socio-economic Environment**

Volume 2 Impact Assessment

4 Impact Assessment

- 4.1 Terrestrial Flora and Vegetation**
 - 4.1.1 Relevant Activities**
 - 4.1.2 Potential Impacts and Risks**
 - 4.1.3 Mitigation and Monitoring**
- 4.2 Terrestrial Environmental Quality**
 - 4.2.1 Relevant Activities**
 - 4.2.2 Potential Impacts and Risks**
 - 4.2.3 Mitigation and Monitoring**
- 4.3 Terrestrial Fauna**
 - 4.3.1 Relevant Activities**
 - 4.3.2 Potential Impacts and Risks**
 - 4.3.3 Mitigation and Monitoring**
- 4.4 Hydrological Processes**
 - 4.4.1 Relevant Activities**
 - 4.4.2 Potential Impacts and Risks**
 - 4.4.3 Mitigation and Monitoring**
- 4.5 Inland Waters Environmental Quality**
 - 4.5.1 Relevant Activities**
 - 4.5.2 Potential Impacts and Risks**
 - 4.5.3 Mitigation and Monitoring**
- 4.6 Air, Greenhouse Gases and Noise**
 - 4.6.1 Relevant Activities**
 - 4.6.2 Potential Impacts and Risks**
 - 4.6.3 Mitigation and Monitoring**
- 4.7 Social, Economic and Cultural Surrounds**
 - 4.7.1 Relevant Activities**
 - 4.7.2 Potential Impacts and Risks**

- 4.7.3 Mitigation and Monitoring
- 4.8 Human health
 - 4.8.1 Relevant Activities
 - 4.8.2 Potential Impacts and Risks
 - 4.8.3 Mitigation and Monitoring
- 4.9 Cumulative Impacts - Landscape, Biophysical, Social, Economic

Volume 3 Environmental Management

5 Environmental management

- 5.1 Draft Environmental Management Plan
 - 5.A Draft Biodiversity Management Plan
 - 5.B Draft Bushfire Management Plan
 - 5.C Draft Waste Management Plan
 - 5.D Draft Water Management Plan
 - 5.E Draft Groundwater Management Plan
 - 5.F Draft Erosion and Sediment Control Plan
 - 5.G Draft Social Impact Management Plan
 - 5.H Draft Mine Rehabilitation and Closure Plan
 - 5.H.2 Financial Cost Calculations

1.1 6 References

Volume 4 Appendices

1.2 Appendices

- A Terms of Reference**
 - A-1 ToR Cross-Reference Table**
 - A-2 Terms of Reference**
- B EIS Commitments**
- C Detailed Technical Studies**
 - C-1 Acid Mine Drainage (AMD) Study**
 - C-2 Traffic and Transport Impact Assessment**
 - C-3 Air, GHG and Noise Impact Assessment**
 - C-4 Soils Study**
 - C-5 Surface Water Impact Assessment**
 - C-6 Groundwater Impact Assessment**
 - C-7 Flora and fauna Impact Assessment**
 - C-8 Archaeological Impact Assessment**
 - C-9 Social Impact Assessment and Community Engagement**
 - C-10 Economic Impact Assessment**
 - C-11 Risk Assessment Report**
 - C-12 Tailings Storage Facility Design Concept**
 - C-13 Relevant Legislation**
- D Personnel Qualifications and Experience**
