Please do not send this cable down Alverly Rd . I live on Alverly Rd . Can this be sent down Goode Rd if it goes ahead . There are no houses on the stretch of Rd from Stuart Hwy to Redcliffe Rd . It would greatly impact us if out the front of my house. Devalues my property and the pylons are a health issue and eye sore . I would appreciate your understanding in this matter. You would not like it out the front of your place if there was an alternative. I have spoken to consultants at Fred's pass show, earlier this year.
