

## Environmental Management Plan

JVE Contracting specialist Interstate bulk listed waste transport contractor providing bulk/consolidated transport services for Licensed Waste collection companies, from licensed collection facilities to licensed/approved disposal facilities both intra and interstate.

### Environmental Management

- JVE Contracting has no storage facility or depot supplying only the collection and transport of bulk/consolidated waste.
- JVE Contracting will ensure compliance to clients EMP and SMP.
- JVE Contracting will ensure compliance to Emergency Response Plan and Spill Management plan.
- JVE contracting will ensure all spills, accidents and near miss incidents are reported and recorded as per WA HVA accreditation requirements. (Quarterly review and annual audit).

### Monitoring reporting, and review

- JVE Contracting will ensure compliance NT Annual reporting conditions.
- JVE Contracting will ensure compliance to WA HVA to quarterly review and annual audit.

### Consultation & Communication plan

JVE Contracting providing bulk transport service from and on behalf of NT EPA licensed facilities and will ensure:

- Compliance to client site EMP and Site Management plans.
- Client supplies valid documentation for approval for disposal, prior to collection of waste for transport, ie Landfill Acceptance Notification, interstate consignment authorisation.
- Client provides evidence that material is as per described and meets acceptance criteria for disposal.
- Waste code and volume of each load is recorded to ensure compliance annual reporting conditions.
- EPL licence number is displayed on all tankers.

### During transit

- Vehicle Incident/accident reporting as per WA HVA.
- Natural disaster – HVA trip planning.
- Waste spill as per spill management.
- Vehicle maintenance as per WA HVA.
- Load restraint as per WA HVA.
