---

Thank you for the opportunity to comment on the above project. Officers of NT WorkSafe have no major comment to make on this project at this time. Appendix H deals with hazardous substances and unfortunately they reference the incorrect legislation. If they had conducted their due diligence they would note that the hazardous chemicals fall under the NT *Work Health and Safety (National Uniform Legislation) Act 2011* not the *Dangerous Goods Act 1998*. Their statement “*The requirements are managed through Federal and State Legislation.*” Is incorrect. The reference to MSDS is no longer correct as it is now classed as SDS. The reference to WorkSafe NT should be NT WorkSafe. I would strong suggest a revisit to appendix H to ensure the proponent understands the relationship with the NT WorkSafe legislation.

**Regards**

**Anthony Waite**
