

# Application for an NT CDS Collection Depot Approval

This is the approved form for applications to operate a Container Deposit Scheme collection depot under the *Environment Protection (Beverage Containers and Plastic Bags) Act 2011* (the Act).

## The Container Deposit Scheme (CDS)

A collection depot is a facility or premises for the collection and handling of regulated containers delivered to the facility or premises for the payment of the refund amount including reverse vending machines.

An approved collection depot means a collection depot for which a collection approval, issued under the Act, is in force.

It is an offence against section 16 of the Act for a person to operate a collection depot unless the person is the holder of a collection approval.

## CDS Collection Depot Approval Application

An application for CDS collection depot approval must:

1. Be made in this approved form
2. Be accompanied by a copy of each waste management arrangement relevant to the approval
3. Be accompanied by any additional information to enable the CEO to decide the application.

Please ensure all information and documents provided in conjunction with this application are accurate and truthful. It is a ground for suspending or cancelling a collection approval that the approval was granted because of a materially false or misleading representation.

## Applicant's Details

Name of person or company applying for approval:

ACN:

ABN:

Mailing address:

Telephone:

Email:

Name of contact person:
