

**Full name:** Bobby Flanagan

### **Submission contents**

Enter your submission below. Maximum of 500 words: Sun cable Project Elizabeth Valley Change the route of the proposed Sun Cable or to have it installed underground minimizing the impact to us as residents and the local flora and fauna. The consultation with the residents on this project has been nil, it was not until our local member brought this to our attention via social media that I was communicated about the proposal, as originally was still under the impression it was going to Middle Arm. I speak for myself and behalf on the residents when I say we are not against development in the NT or the project as a whole, however are strongly against the cable being installed above ground and request it be installed underground from when it leaves the Stuart Highway until it is out of any residential properties, including rural properties proximity.
