

Table of Contents

Executive Summary	i
1.0 Introduction	1
1.1 Overview	1
1.2 Summary of Submissions	1
1.3 Structure of this Supplementary EIS	2
2.0 Project Update	3
2.1 Design Refinement Overview	3
2.2 Design Refinement Considerations	6
2.2.1 Refined Method of Reclamation Works	6
2.2.2 Decrease in Piles Required	6
2.2.3 Decrease in Fill Import	6
2.2.4 Decrease in Rock and Pavement Import	7
2.2.5 Decrease in Material Transport	7
2.2.6 Increase in Hardstand Area	7
2.2.7 Minor Increased in Dredge Volume	7
2.2.8 Managing Ongoing Design Refinement	7
2.3 EPBC Referral Update	7
2.4 Approvals Management and the ECI Process	8
3.0 Response to submissions - Submissions from Northern Territory Government Agencies	10
3.1 Air Quality	10
3.1.1 DEPWS Comments	10
3.1.2 Proponent Response	10
3.2 Operational Noise	19
3.2.1 DEPWS Comment	19
3.2.2 Proponent Response	19
3.3 Analyse Acid Sulfate Soils	21
3.3.1 DEPWS Comment	21
3.3.2 Proponent Response	21
3.4 Zone of Impact and Zone of Influence	22
3.4.1 DEPWS Comment	22
3.4.2 Proponent Response	22
3.5 Coastal processes, sediment transport and plume model triggers	26
3.5.1 DEPWS Comment	26
3.5.2 Proponent Response	26
3.6 Marine environmental quality, water quality – bund walls	28
3.6.1 DEPWS Comment	28
3.6.2 Proponent Response	28
3.7 Marine environmental quality, Water quality	30
3.7.1 DEPWS Comment	30
3.7.2 Proponent Response	30
3.8 Marine ecosystems, Migratory and marine vertebrate fauna	31
3.8.1 DEPWS Comment	31
3.8.2 Proponent Response	31
3.9 Marine ecosystems, Marine environmental quality, Light availability	37
3.9.1 DEPWS Comment	37
3.9.2 Proponent Response	37
3.10 Marine ecosystems, Marine communities	38
3.10.1 DEPWS Comment	38
3.10.2 Proponent Response	38
3.11 Coastal process - sediment transport and plume model	38
3.11.1 DEPWS Comment	38
3.11.2 Proponent Response	38
3.12 Marine environmental quality, Cumulative impacts	39
3.12.1 DEPWS Comment	39
3.12.2 Proponent Response	39
3.13 EMP: mitigation measures	40
3.13.1 DEPWS Comment	40
3.13.2 Proponent Response	40
3.14 Environmental management plans	41
3.14.1 DEPWS Comment	41
3.14.2 Proponent Response	41

3.15 Maps of the Project footprint: AAPA Authority certificate, Project footprint, Proposed activities.....	43
3.15.1 AAPA Comment.....	43
3.15.2 Proponent Response	43
3.16 Sacred sites, modelling, pre/post monitoring, vessel transit.....	43
3.16.1 AAPA Comment.....	43
3.16.2 Proponent Response	43
3.17 Underwater cultural objects, consistency, sediment dynamics.....	44
3.17.1 Heritage Branch Comment	44
3.17.2 Proponent Response	44
3.18 Mitigating loss of FBB, survey area, maritime survey	45
3.18.1 Heritage Branch Comment	45
3.18.2 Proponent Response	45
3.19 Mitigating loss of FBB, LMS.....	45
3.19.1 Heritage Branch Comment	45
3.19.2 Proponent Response	45
3.20 Mitigating loss of FBB, signage	46
3.20.1 Heritage Branch Comment	46
3.20.2 Proponent Response	46
3.21 Loss of FBB, heritage listing, historical significance	46
3.21.1 Heritage Branch Comment	46
3.21.2 Proponent Response	46
3.22 Economic gaps, Economic studies, Data transparency.....	46
3.22.1 DCMC Strategic Policy Division Comment	46
3.22.2 Proponent Response	46
3.23 ALL EIS: Police, Fire and Emergency Services Response.....	48
3.23.1 NTPFES Comment	48
3.23.2 Proponent Response	48
3.24 Traffic impact Assessment: Community and Economy/Human Health, Haulage of material/truck movements.....	49
3.24.1 DIPL Transport and Civil Services Division Comment.....	49
3.24.2 Proponent Response	49
3.25 All EIS: Zoning	50
3.25.1 DIPL Comment	50
3.25.2 Proponent Response	50
3.26 All EIS: Crown land estates: Crown land act 1992	50
3.26.1 DIPL Comment	50
3.26.2 Proponent Response	50
3.27 EIS: Objectives and benefits of the Project	51
3.27.1 DITT Comment	51
3.27.2 Proponent Response	51
4.0 Response to Other Submissions	52
4.1 Darwin Harbour Dredging Strategy.....	52
4.1.1 ECNT Comment.....	52
4.1.2 Proponent Response	52
4.2 Timing of Dredging	52
4.2.1 ECNT Comment.....	52
4.2.2 Proponent Response	52
4.3 Maintenance Dredging.....	53
4.3.1 ECNT Comment.....	53
4.3.2 Proponent Response	53
4.4 Underwater Noise	53
4.4.1 ECNT Comment.....	53
4.4.2 Proponent Response	53
4.4.3 ECNT Comment.....	54
4.4.4 Proponent Response	54
4.4.5 ECNT Comment.....	54
4.4.6 Proponent Response	54
4.4.7 ECNT Comment.....	55
4.4.8 Proponent Response	55
4.4.9 ECNT Comment.....	55
4.4.10 Proponent Response	56
4.4.11 ECNT Comment.....	57

4.4.12 Proponent Response	58
4.4.13 ECNT Comment.....	58
4.4.14 Proponent Response	58
4.4.15 ECNT Comment.....	58
4.4.16 Proponent Response	59
4.4.17 ECNT Comment.....	59
4.4.18 Proponent Response	59
4.4.19 ECNT Comment.....	59
4.4.20 Proponent Response	59
4.5 Marine Fauna.....	62
4.5.1 ECNT Comment.....	62
4.5.2 Proponent Response	62
5.0 NT EPA advice on additional information to be provided in the SEIS	63
5.1 NT EPA Additional Comments.....	63
5.2 Land reclamation activities and sediment plumes	63
5.2.1 NT EPA Requested Information.....	63
5.2.2 Proponent response.....	63
5.3 Updated plume modelling	64
5.3.1 NT EPA Requested Information.....	64
5.3.2 Proponent Response	64
5.4 Sediment management and mitigation measures.....	64
5.4.1 NT EPA Requested Information.....	64
5.4.2 Proponent Response	64
5.5 Habitat modelling of South Shell Island and Catalina Island	64
5.5.1 NT EPA Requested Information.....	64
5.5.2 Proponent Response	64
5.6 Provision of a Draft Dredge and Dredge Spoil Placement Management Plan.....	65
5.6.1 NT EPA Requested Information.....	65
5.6.2 Proponent Response	65
5.7 Tailwater test and release locations.....	65
5.7.1 NT EPA Requested Information.....	65
5.7.2 Proponent Response	65
5.8 Environmental Management Plans.....	65
5.8.1 NT EPA requested information	65
5.8.2 Proponent Response	65
6.0 Updates to the EIS based on SEIS response	66
6.1 Air Quality	66
6.1.1 NSW Approved Methods Assessment of Air Toxics (VOCs)	66
6.1.2 Additional Sensitive Receptors	66
6.1.3 Revised NEPM Criteria Applied to Modelled Results	66
6.1.4 Incremental VOC Results and Discussion - Construction Phase	67
6.1.5 Incremental VOC Results and Discussion - Operation Phase.....	69
6.1.6 Errata list.....	71
6.2 Terrestrial Noise	77
6.2.1 Purpose of this Addendum.....	77
6.2.2 Amendments.....	77
6.3 Traffic Impact Assessment.....	84
6.3.1 Traffic Impact Assessment Errata List	84
6.4 Social, Cultural and Economic Surrounds	86
6.5 Marine Environmental Quality.....	92
6.5.1 Environmental Factor Management Framework Errata List	92
6.6 Marine Flora and Fauna	95
6.6.1 Benthic Habitats.....	95
6.6.2 Environmental Factor Management Framework Errata List	98
6.7 Environmental Management Framework.....	102
6.7.1 Section 2.0 of the Environmental Management Framework: Construction.....	102
6.7.2 Section 3.0 of the Environmental Management Framework: Detailed Protected Species.....	107
6.7.3 Section 4.0 of the Environmental Management Framework: Operational	112
7.0 Impact Assessment Update Considerations.....	115
7.1 Air Quality	115
7.1.1 Decrease in Piles Required	115
7.1.2 Decrease in Fill, Rock and Pavement Import.....	115

7.1.3 Decrease in Material Transport.....	115
7.1.4 Increase in Hardstand Area	115
7.1.5 Minor Increase in Dredge Volume	115
7.2 Marine Flora and Fauna	115
7.2.1 Refined Method of Reclamation Works	116
7.2.2 Decrease in Piles Required	116
7.2.3 Increased in Hardstand Area	116
7.2.4 Minor Increase in Dredge Volume	116
7.3 Marine Environmental Quality.....	117
7.3.1 Refined Method of Reclamation Works	117
7.3.2 Increased in Hardstand Area	117
7.3.3 Minor Increase in Dredge Volume	117
7.4 Social, Cultural and Economic Surrounds	118
7.4.1 Cultural Heritage	118
7.4.2 Traffic	118
7.5 Other	119
7.5.1 Noise.....	119
8.0 Conclusions	120
9.0 References	121
Appendix A Cross Reference Table	121
Appendix B Operational Noise Figures.....	122
Appendix C Draft Dredging and Dredge Spoil Placement Management Plan.....	133
Appendix D Updated Risk Register	135
Appendix E Updated Environmental Management.....	258
