

Section 22**Acknowledgements****Project Team**

This document is the culmination of many investigations conducted between September 2006 and November 2007. Management and technical direction for these investigations was provided by Vic Farrington and Julie Carpenter of URS Darwin. George Jenkins and Sven Sewell of GBS provided key client input.

Thanks go to the members of the various Northern Territory Government agencies for their advice and assistance throughout the preparation of this EIS.

The principal authors of the report are:

- Vic Farrington (Project Director);
- Julie Carpenter (Co-project Manager, Principal Environmental Scientist / Environmental Manager);
- Ian Hollingsworth (Co-project Manager , Principal Environmental Scientist / Environmental Manager); and
- Morag Anderson (Senior Environmental Scientist).

Other URS staff who contributed to the document include:

- Chris MacHunter (hydrogeology);
- Dr Ian Brandes de Roos (hydrogeology);
- Soraya Van Tilborg (hydrogeology);
- Andrew Piggin (mine and road engineering, hydrology);
- James Stevens (mine and road engineering, hydrology);
- Pablo Elizondo (mine and road engineering, hydrology);
- Andrew Mussell (hydrology);
- Dr Ian Swane (waste rock management);
- Dr Martin Andrew (irrigation assessment; liaison with CSIRO);
- Dr Don Burnside (greenhouse gas emissions);
- Penny Barker (environmental management and report compilation);
- Carrie Doncon (environmental management and report compilation);
- Cameron Clark (report compilation);
- Corinna DeCastro (consultation);

Section 22

Acknowledgements

- Belinda Jamieson (environmental management, report writing and GIS);
- Shauna Mounsey (environmental management and report compilation)
- Justin Dwyer (graphics and GIS); and
- Sarah Leach (document preparation).

Specialists

Specialists who conducted investigations and assessments include:

- Jane Munday, Michels Warren Munday (community consultation and socio-economic assessment);
- Ecological Management Services (fauna surveys);
- Julie Crawford and Kristin Metcalfe (flora surveys);
- Dr Perry Poulton and Dr Neal Dalglish, CSIRO Sustainable Ecosystems (irrigation modelling);
- Christine Crassweller, Begnaze Pty Ltd (heritage studies);
- Allan Warchot, NTG Medical Entomology Branch (biting insects); and
- Mark Burns, Global Soil Systems (rehabilitation review).

GBS

GBS personnel who provided input into the EIS process include:

- Sven Sewell, Environment Manager (report input and review);
- George Jenkins, Maud Creek Project Manager (report input and review);
- Tom Heaton, Operations Manager (consultation); and
- Tony Simpson, Chief Operating Officer (consultation).
