
20.1 Project Team

This document is the culmination of many investigations conducted between September 2006 and June 2007. Management and technical direction for these investigations was provided by Vic Farrington and Julie Carpenter of URS Darwin.

Thanks go to the members of the various Northern Territory Government agencies for their advice and assistance throughout the preparation of this PER.

The principal authors of the report are:

- Vic Farrington (Project Director);
- Julie Carpenter (Project Manager);
- Penny Barker (Senior Environmental Scientist); and
- Carrie Doncon (Senior Environmental Scientist).

Other URS staff who contributed to the document include:

- Chris MacHunter (hydrogeology);
- Richard Vogwill (hydrogeology modelling);
- Brooke Warren (hydrogeology);
- Andrew Piggin (mine and road engineering, hydrology);
- James Stevens (mine and road engineering, hydrology);
- Pablo Elizondo (mine and road engineering, hydrology);
- Alan Robertson (waste rock management);
- Don Burnside (greenhouse gas emissions);
- Morag Anderson (greenhouse gas emissions);
- Shane Boladeras (community consultation and socio-economic assessment);
- Cameron Clark (environmental management and report writing);
- Belinda Jamieson (environmental management and report writing);
- Justin Dwyer (graphics and GIS); and
- Lisa Cox (document preparation).

20.2 Specialists

Specialists who conducted investigations and assessments include:

- Indicus Biological Consultants Pty Ltd (flora and fauna);
- Christine Crassweller, Begnaze Pty Ltd (heritage studies);
- Allan Warchot, NTG Medical Entomology Branch (biting insects).
