**Subject:** RE: Invite to comment - Notice of Significant Variation - Rustlers Roost and Quest 29 Open-cut Mine Redevelopment

Good morning,

NT Health, Public Health Directorate did not make a submission on the original proposal but would like to provide the following information.

NT Health, Public Health Directorate has reviewed the notice of significant variation and request that the new location for the accommodation camp reflect the current NT [‘Health requirements for mining and construction camps’](#)

It is the proponent’s responsibility to ensure that camp infrastructure contractors follow these requirements.

**Regards,**

**Sean Bourke**
