In response to your below email, please refer to the following advice provided by the Northern Territory Fire and Rescue Service (NTFRS):

- The remote location of the operation is outside NTFRS Emergency Response Area, which limits our ability to respond to an emergency in a timely manner.
- With regards to road crash/response, the NTFRS crews will respond as required within existing capacity as with any other crash. If the timeliness of that response does not adequately mitigate the risk for Primary Gold – Rustlers Roost and Quest 29 Open-Cut Mine Redevelopment, then self-funded measures should be implemented.
- The NTFRS is happy to advise Primary Gold – Rustlers Roost and Quest 29 Open-Cut Mine Redevelopment on current capabilities in the vicinity of their operations to inform their risk assessment.

Should you require anything further, please do not hesitate to contact this office.

Regards

| Senior Ministerial Liaison Officer
