Dear Ms Bradley

Re: Invite to comment – Jabiru Power Station proposal

Thank you for the opportunity to comment on the proposed Jabiru Hybrid Power Station Project.

The Energy Division state that the proposed development area is covered entirely by Reserved Block (RB) 80 which prevents the exploration for, or production of, petroleum within the area.

The Minerals Division note that the proposed development area is not affected by any current mineral titles.

The Office of Sustainable Energy comment that the proposed development is consistent with the Government's renewables policy.

If you require any further information please contact Mairi Walsh, Manager Resource Regulatory Reform at StrategyPolicyCoordination.DITT@nt.gov.au or on 8999 7020.

Yours sincerely

BRETT EASTON
Director, Resource Policy and Reform
